

Instant Self-Tan Liquids

For professional spray tan applications

Two formulas available – Original & Darker

Fake Bake spray tan solutions are self-tans formulated to the precise viscosity to make them compatible with most spray tan systems – Airbrush, HVLP and LVP spray tan guns (although compatibility with Fake Bake POD is perfect). Fake Bake solutions are currently available in two different variants. The difference is the levels of naturally derived tanning agents DHA and Erythlose. The darker formula contains higher concentrations. These enable you to pick the solution most suited to your clients' skin tones and lifestyles. Although the solutions will develop to compliment the clients' natural colour, you can choose the finish, controlling colour application and development for a truly tailored tan. Both solutions contain 'show where it goes' cosmetic colour to assist application. Unlike other spray tan solutions, Fake Bake's have a pleasant smell.

Instant Self-Tanning Liquid

Suitable For: Skin Types – Oily, Normal, Dry

Skin Tones – Light, Medium, Dark

People who want a natural looking, holiday tan

Darker Formula Instant Self-Tanning Liquid

Suitable For: Skin Types – Oily, Normal, Dry

Skin Tones – Medium, Dark

People who want a natural looking, darker tan

Spray Tanning

Ideal for Mobile/Home-Based Beauty Therapists & Salons

Spray Tan Equipment

Fake Bake experts have been working with some of the UK's leading design and engineering consultants to create a versatile spray tan system that promises professional performance, efficiency, health & safety levels way-beyond conventional systems. Fake Bake has integrated unique HVLP spray tanning technology, extraction and filtration into sleek, simple to use units that can be transported easily and ready to use in seconds – ideal for mobile and home-based therapists or salons that do not want to dedicate a treatment room entirely to spray tanning. Innovations include a self-inflating spray pod with built-in machine washable liner & filter, an advanced high-performance extraction system that transforms into a convenient storage case and Fake Bake's revolutionary Spray Gun designed specifically for Fake Bake's Instant Self-Tanning Liquids (Original & Dark).

PATENT PENDING & REGISTERED DESIGN PENDING

Instant Self-Tanning Liquids

Fake Bake Self-Tanning Liquids are available in two variants, containing different concentrations of the naturally derived, premium tanning agents DHA and Erythulose. The premium DHA interacts with the amino acids which lie in the top layers of the skin (the stratum corneum) to develop rapidly into a tan that compliments your skin tones. Erythulose develops the tan more slowly for longer lasting results. When combined, these tanning agents work together to reduce streaking and miscolouring for a natural looking tan. They also make your tan fade perfectly evenly for a continuous natural appearance.

PARABEN FREE

Spray POD

Ideal for Mobile/Home-Based Beauty Therapists & Salons

Spray Gun

- No compromise design, created specifically for spray tanning
- Simple operation, no adjustments or set-up required (point & spray technology)
- Ergonomic non-slip grip designed for female hands
- Fixed HVLP nozzle offers wide, even spray pattern
- Quick-switch capsules enable you to swap solutions in seconds
- Built-in solution level and 'spirit level' gauge for even tanning
- Consistent air & solution pressure from head-to-toe for even results
- Conical solution capsules anti-tip & spill design
- No dismantling required for cleaning – simply rinse through

Finished design will vary from illustrations. Colours may vary.

Spray Tan Workstation

- Robust, durable design with built-in handle for easy transportation
- Large wheels are ideal for stairs
- Spray Gun docking system for ultimate convenience
- Retractable air hose reduces clutter
- Built-in revolutionary 'blow turbine' is more efficient, quiet running & very reliable
- Built-in storage for towels, consumables
- Holds six refill capsules
- Eliminates heat transfer between 'blow turbine' & liquids so shelf-life is not compromised
- Filtered air scoops for an uncontaminated airflow
- Complimentary showcase fixes on for presenting & selling retail products
- System only requires one socket

WORKSTATION DIMENSIONS
HEIGHT: 67cm | WIDTH: 39cm | DEPTH: 40cm

EXTRACTOR DIMENSIONS
HEIGHT: 33cm | WIDTH: 29cm | DEPTH: 76cm

Spray Tan Pod with Extraction

- Instant self-inflate pod captures any overspray for a totally clean room
- Puncture proof, guaranteed to inflate every time
- Pod stores conveniently into extraction case (with shoulder strap)
- Machine-washable (with built-in filter) for convenience
- Switch between interchangeable liners for consistently high levels of hygiene & presentation
- Secondary filter cartridge eliminates room contamination
- Waterproof base & extended step-out protects the floor
- New centrifugal extractor fan draws twice as much air, creates less noise & is more durable
- Extractor positioned for optimum draw, especially from the client's face to reduce the risk of inhalation
- Flexible POD can be manipulated to fit into more confined spaces

INFLATED POD DIMENSIONS
HEIGHT: 190cm | WIDTH: 160cm (flexible) | DEPTH: 179cm FLOOR PROTECTION
